

MARTOL AL 60

Metalworking/Forming oil

Aluminium stamping and wiredrawing oil.

DESCRIPTION

- Neat oil chlorine and sulphur free.

APPLICATIONS

- Stamping of aluminium blanks.
- wiredrawing oil with average viscosity
 - entrance diameter of wire: 10 mm.
 - finished wire diameter : 2,7 to 3 mm.

ADVANTAGES

- Good lubrication and antiwear properties.
- Easily applied.
- Reduction of energy consumption.
- High capacities of wiredrawing.
- Reduces wear of in the dye.
- Very easily filterable.

TYPICAL CHARACTERISTICS	METHODS	UNITS	MARTOL AL 60
Appearance	Visual	-	clear
Colour	ISO 2049	-	1
Viscosity at 40°C	ISO 3104	mm ² /s	55

The characteristics shown in this table are typical values given for illustrative purposes.
