

LUBRILAM CLEANER

Metalworking

Air purification oil designed for the aluminium rolling industry.

UTILISATIONS

- Purification of air containing solvent vapours (rolling base).
- **LUBRILAM CLEANER** is particularly well-adapted to Airpur systems.

ADVANTAGES

- Highly refined mineral, base possessing a high solvent vapours adsorption capacity .
- Excellent oxidation stability, increased service life.
- Substantial reduction in consumption of rolling bases.
- Enables recycling of evaporation losses.

TYPICAL CHARACTERISTICS	METHODS	UNITS	LUBRILAM CLEANER
Appearance	visual	-	clear
Density at 15°C	ISO 3675	Kg/m ³	872
Colour	ASTM	-	< 1
Viscosity at 40°C	ISO 3104	mm ² /s	30.6
PM flash point	ISO2719	°C	220

Above characteristics are mean values given as an information.
