APPLICATIONS

TOTAL CAPRANO TDJ FE 10W-30 is a **high-performance** lubricant used in **industrial Diesel engines**.

With its “**low-SAPS**” (low sulphated ash, phosphorus and sulphur) technology, TOTAL CAPRANO TDJ FE 10W-30 is specifically adapted to the latest generation of Diesel engines equipped with **post-treatment systems**, such as Diesel particulate filters (DPFs).

TOTAL CAPRANO TDJ FE 10W-30 is also suitable for engines with selective catalytic reduction systems.

PERFORMANCES AND CUSTOMER BENEFITS

Its **FUEL ECONOMY** technology helps save up to 5% fuel, compared to an SAE 40 grade reference lubricant.

High quality base stocks combined with high-performance additives make TOTAL CAPRANO TDJ FE 10W-30 an exceptional **technical performances lubricant** and sustainable over time.

Advanced additives keep the engine's most sensitive parts clean thanks to **detergent, dispersant and anti-wear properties**, added to effective control of soot, sludge and deposits.

The “**low-SAPS**” formulation of TOTAL CAPRANO TDJ FE 10W-30 improves the post-treatment system durability, preventing the clogging of the Diesel particulate filter (DPF).
