

MULTIS 2 (N 3702)

Grease

Grease for electrical connections.

APPLICATIONS

- Service temperature from - 20 °C to 120 °C.

SPECIFICATIONS

- ISO-L-XBCDA2

ADVANTAGES

- Grease with no extreme-pressure additive.
- Very good mechanical stability.
- Very good oxidation resistance.
- Good antirust and anticorrosion properties.

TYPICAL CHARACTERISTICS	METHODS	UNITS	MULTIS 2 (N 3702)
Texture		-	Smooth
Colour		-	Brown
NLGI classification		Grade	2
Drop point		°C	190
Type of soap		-	Lithium
Viscosity of the base oil at 40 °C		mm ² /s	120

Above characteristics are mean values given as an information.
